SUMMARY

BE CSE (Cyber Security) undergraduate with strong fundamentals in HTML, CSS, JavaScript, and core security concepts. Passionate about secure application development and hands-on academic projects.

EXPERIENCE

Frontend Developer (Academic Projects)

Self / Academic Projects

September 2023 - November 2025, Coimbatore

Cloud Technologies provides academic projects, college workshops, internships, digital marketing, online training and software services.

- Developed frontend features for 3+ academic projects using HTML, CSS, and JavaScript.
- Built and integrated 10+ reusable UI components and layouts across projects.
- Implemented responsive designs for desktop and mobile views.
- Collaborated on academic assignments to design, test, and refine frontend workflows.

PROJECTS

Traffic System Management

Self-Initiated Project • github.com/bharathi-2312006/smart-traffic-sih • May 2025 - December 2025

- Designed a logic-based traffic system for an academic project covering 1 road intersection.
- Implemented traffic signal control logic for 4 signals and 3 traffic lanes.
- Defined 6 traffic rules to handle low, medium, and high congestion cases.
- Processed 3 different traffic input conditions to control signal timing.
- Verified system output for each traffic case to ensure correct signal behavior.

Smart Mental Health App

Academic Project • github.com/bharathi-2312006/mental-health-SIH • January 2024 - September 2024

- Designed a user-focused smart mental health application as part of academic coursework.
- Developed 6+ UI screens including dashboards, forms, and tracking interfaces.
- Implemented 4+ functional modules such as mood tracking, habit tracking, and reminders.
- Planned logical user flows to ensure smooth navigation and user engagement.
- Considered basic data privacy and security principles during application design.

EDUCATION

Bachelor of Engineering (B.E) – Computer Science and Engineering (Cyber Security) – Pursuing

Karpagam Academy Of Higher Education • India, Coimbatore. • 2027 • 8.6

- Current CGPA: 8.6
- Specialization: Cyber Security
- Relevant coursework: Computer Networks, Cyber Security Fundamentals, Data Structures, Web Development
- Actively learning secure application development and security concepts
- Actively developing technical and problem-solving skills through academic coursework and self-learning.
- Interested in secure software development, application security, and system design concepts.

SKILLS

HTML, CSS, JavaScript, C++, Java, Cyber Security Fundamentals, Network Security Basics

Soft skills

Problem Solving, Communication, Team Collaboration, Time Management, Analytical Thinking

Languages

English (Fluent), Tamil (Native), Hindi (Basic)
